

The Self Help Africa and Irish Aid 'Science for Development' award is presented annually at the BT Young Scientist & Technology Exhibition.

Our programme is funded by Irish Aid.

Science for Development 2021 winner Aronnya Khan Zakaria with principal Pdraig Flanagan at Castletroy College, Limerick

The award winner and their teacher receive a travel bursary for a study visit to Africa, and short-listed entrants are invited to attend a student project showcase.

Science can play a vital role in tackling the challenges that affect communities in the Developing World.

Does your project address environmental or social justice issues faced by poorer countries of the world? If so, you may be interested in presenting at our showcase event in collaboration with Irish Aid.

Find out more at selfhelpafrica.org/ie/education/science-for-development

Irish Aid is the Government's overseas development programme at the Department of Foreign Affairs. The programme supports partners, including Self Help Africa, working in some of the world's poorest countries. Irish Aid also supports global citizenship education in Ireland to encourage learning and public engagement with global issues.

Design Competition

We are looking for post-primary school students to design a **new award trophy**, the winning design will be presented to the **2023 award winner**. Full competition details will be announced on our website in mid February.

On our website, you will find resources for teachers and students, virtual exhibitions, and details of our workshop offerings.

Webinar Series

Looking for future project ideas? Our 'Science for Development' webinar series hopes to inspire students to address issues, such as environmental and social justice issues, affecting communities in poorer countries of the world.

It also hopes to highlight connections between science at post-primary level and potential careers in science.

Watch the 4-part series now at selfhelpafrica.org/ie/education/science-for-development

WOULD YOU LIKE A VIRTUAL GUIDED TOUR OF THE 2022 BT YOUNG SCIENTIST EXHIBITION?

We lead classes or TY groups through the exhibition portal to view exhibits and student projects.

Our tour will focus on projects that our team have identified as noteworthy in the areas of: food innovations, soil and plant research, climate change, sustainability and social justice.

Available up to 31st January. To book, email: aisling.halligan@selfhelpafrica.org

Veronica Brown and
Linda Kampira,
Malawi
